Excerpts from *The New World Authorized Dictionary*

Alexander Weinstein

brainflea n. Useless information sent via brain/web interface, primarily concerned with marketing. **2019** Oct 12 Glade Dunning *Cyberspeak* [posting on think-the-stream] <http://www.thinkthestream.com/blog/2056/10/12:> Braintwitters started arriving at Podmarket Promos on Saturday afternoon. I was the first to get a complaint, but we were all getting them soon enough. Seemed our latest brainflea had sunk its teeth and wasn't letting go—a particularly viral promo Quimbly dreamed up for BellyBurners that projected itself into the upper right occipital quadrant beneath the eyelid, making it distracting to anyone's vision and ensuring there was no way you were going to blink that one out of your eye. **2019** Nov 1 javinflav on Scooberwatch [http://scooberwatch.com/2054/brainflea-promoz-newzshizzle/#comment-19837:](http://scooberwatch.com/2054/brainflea-promoz-newzshizzle/#comment-19837) Even with the case of EDs (Extra-invasive Data) like what Podmarket is putting out, the problem with brainfleas is that they're essentially just a retinal base without any deeper ocular invasiveness. If brainfleas can't create a deeper neural probe to leave some sort of ocular trace, you're just going to have people dumping these QBF's from their memory [unlike Nerve-Ending-Strings that cling to spinal-receptors, check out Wildgirlz NES#1a-5]. That's a lot of eye-space lost for a single brainflea getting squashed in a blink.

mush v. ["Just Mush the Bitch," song by American Musician, G-Spot] **1.** Heterosexual intercourse where the female has her face pressed firmly against a surface (usually floor) in a forceful manner. **2016** Feb 1 G-Spot [http://www.songlyrics/mushthebitch_0985.php:](http://www.songlyrics/mushthebitch_0985.php) If your girl is acting the slut, just mush the bitch, just mush the bitch/and if the young thing starts acting up, just mush that shit, yeah must that shit/I want to see those panties drop/I want to see that cherry pop/as I mush your shit, yeah mush that shit. **2016** Feb 24 *Late Night with Dymon Shields* (transcript): Dymon Shields: "I think we all want to know: just what is mushing?" G-Spot: "Psh, I'll mush you right now [laughter]. Seriously? Well, mushing is when you take your girl and put her face down, you know, against the carpeting or her mom's old ratty bathroom tiles. Psh. You know you been mushing when you can count the tiles on her face when she get up [laughter]." **2016** March 14 Tommy Tanzotti *MTV Spring Break Unchained with Tommy Tanzotti* (transcript) "Wassup-wassup? Ohhhh yeah, we down here chillin' with the hottest females in Cabo. Yo, what's your name?"/ "Sarah."/

“And where you from?”/ “I’m from Ohio. I go to Oberlin.”/ “I bet you do a lot of mushing at Oberlin.”/ “I sure do.”/ “Why don’t you put your face on the ground and show us how you mush it. Yeah, that’s it. Mush it, baby, mush it.” **2.** To embarrass someone publically through domination or degradation, often in business. **2016** June 18 Larry Spence *Business Week* “When it comes to foreclosing, a lot of us will refer to it as mushing. At the office it’s not difficult to hear a quote like, ‘You should’ve seen how I mushed the Johnsons today, had the husband face down, wife crying.’”

Orange blossom, orange-blossom n. [THRRADS 4.b. ‘a special-purpose high-explosive bomb of incredible damage’ 2016] Large and powerful conventional bomb dropped from PICA [PlayCube-Interactive-Controlled Aircraft] **2017** Oct 15 Tim Penicaud *Military Journal VII* <<<http://globalsecurity.org/military/mil-0475-usmco.html>>> TACTICAL SUPPORT FOR AREA “PRAYING MANTIS” The KLMT-8 bomb, which scorches targets with a burst of white phosphorous powder burning at 6700C, was released for use against Turkey. The bomb, also known as an orange-blossom, is able to “liquidate largely populated areas.” From an aerial view each bomb creates a large white star-like pattern that resembles the flower. **2017** Aug 1 Sgt. Marcus Wicker *ArmySpeak*: “You try telling my guys we’re in a financial squeeze. Men who served with me were affected by orange blossoms, and we’re getting this for our service? I don’t know what Washington’s thinking but it’s damn clear we’ve been cut off from medical coverage thanks to it [The Wartime Recuperation Act].” **2018** Oct 17 Don Roberts *Entertainment Weekly*, Filming of the comedy, *Duty Calls*, came to an unexpected halt in the capital city of Ankara yesterday when an orange-blossom exploded a little too close for comfort. The reverberations ruffled even the cool-headed indie director, who stood in cargo shorts while dialing in a call to local officials. “Sometimes you just hope they remember we’re filming here,” he commented to reporters.

tog, TOG, toggling [therapy on the go, therapy+jog] v. also n. The practice of relying upon ITPs (Inner-Ear® Therapy Programs) while in a public space, often in the company of others or during social interaction (eating, walking, while in conversation). **2018** March 20 Abercrombie Jones *Modern Business*: Inner-Ear and AT&T’s recent merger means good news for stockholders and even better news for customers. Reports show a twelve percent increase of Inner-Ear surgery since the merger went public, and already airports and restaurants are filled

with the sound of patrons toggging aloud in between IT support and mojitos. [5] Yet, while many users attest to the value of toggging, continual wireless therapy does not necessarily equate with balanced lives. Jeff McCarthy, Professor of Social-Cybernetics at Johns Hopkins, notes, “A lot of toggging can actually lead to a form of social myopia. We’ve seen these people: the mother toggging on parenting while her children are crying, the date who excuses himself to tog romance tips. I think we’re going to see an overall increase of chronic toggging in the near future.”

–**ger (togger)** n. A person who relies upon ITPs while in public. **2018** Feb 1 Ms. Kathy McGee *Kathy’sFunPage* <http://www.kathysfunpage.com/21994>: Well, I’m sure all of you are as fed up as me with toggging. Yesterday, once again (!), I almost started another conversation with one of these toggers—a real cutie too, in a Sacchi & Tocchi Kevlar helmet. I heard him say, “I have a lot of trouble knowing how to speak to women.” So I turned to him and said, “You can just say hello,” but he wasn’t paying any attention to me; toggging away as usual. Ugh! When are we going to get some men who don’t need therapy 24/7!? **2019** Tyler Studs Dec 20 *The Guardian* (London): Good news for anyone suffering from toggging-fatigue: the latest is www.toggerhealing.com, an online social network where chronic toggers can connect with other toggers to receive therapeutic support from a virtual toggging community.

urban outfitting v. To use discarded materials in order to increase the safety of a military uniform (see Trash-Fitting “ATNW” AS 80[2056]: 311-12) **2018** Nov 1 Mitsubishi Mikado *The Philadelphia Reporter*: Republican Senator Ed Brendell voiced his objection to the Geary Bill, stating that the \$187 million proposed for phosphorous-protective clothing would be better used on an increase of orange blossoms and other military equipment. “There’s no need to upgrade protective equipment,” Brendell said. “These guys [soldiers] know how to use the materials they’ve got to protect themselves. They call it urban outfitting.” **2019** Jan 4 obituaries *Columbus Informer*: The family of Sgt. David Brown, 19, of Gahanna, learned that he was killed Wednesday when an undetonated orange-blossom was used against US forces outside of Istanbul. His parents claim the death could have been prevented. “You can’t expect urban outfitting to protect our children against the type of bombs they’re using over there,” his father said. **2.** n. Civilian clothing which has been altered by adding protective equipment used by police or military. **2019** May 4 *HipHopJunkyz*: G-Spot most surely got the most style—what with his latest urban outfitting. Those of

you who caught his *DeathStarGangsta* tour saw him wearing his M.O.L.L.E. II Bulletproof Carrier Vest and Green Phantom Combat goggles (avail. at www.downtoparty.com). **2019** August 14 Sandy Sheener *V Women's Style*: Sacchi & Tocchi released their new fall line of Urban Outfitting in Copenhagen during last month's fashion week. Bianca wore a Remploy Textile full NBC bodysuit with respirator and gloves, while Kate Swiss wowed the crowd, showing off S&T's latest White Phosphorous line.

wink, wink-ing, Wink v. [from *Winker*: social-networking Brain/Web interface site created in 2020 by MIT student Jeremiah Jones, originally called *Socialwinker*] To include or exclude people in your field of vision/hearing by use of Winker's Blue-Eye® technology. **2020** Dec 1 Axe Brockman *Student-Speak* Harvard University Press: "We use it at parties, you know, to find out where our friends be at. You turn on Winker and suddenly everyone shuts up and disappears so I can hear my bros." Like many students across American campuses, Zack has been winking-in people who share his interests. "It's a good way to meet people," he says. "Like let's say I want to meet a girl that likes to mush—bam—as long as she put that in their profile, I see her." [¶] While critics claim winking is an anti-social act, isolating users into a narrow range of preferences, many students believe it helps them save time and emotional space, allowing them to wink people out of their vision who it would previously have taken weeks to discover were incompatible. Traci Hall says it has helped her eliminate unwanted ogling. "A lot of guys check me out and, before Winker, I'd have to walk to class and see every guy looking at me. Now I just wink in the type of guy I want, and all the others become blur-bodies." **2021** Nov 23 Nicholas Wobido *Atlanta Constitution* 1M (LexisNexis): Intended for sex offenders, Winker's use of red-lining anyone with a criminal record raises a number of ethical issues. Take the case of Joshua Martin whose misdemeanor for ripping InnerEar® downloads earned him four years as a red-body. "Anyone who's winking sees my red-line and crosses the street," Martin reports, claiming he lives in virtual isolation thanks to Winker.

WMDMA n. [after WMD (Weapons of Mass Destruction) + MDMA (see Ecstasy)]: Methamphetamines shaped/named after weapons of mass destruction. **2018** Nov 1 Levi Matthews *The Oregonian* [Portland, OR]: This week's police raid on a Burnside Avenue apartment turned up a collection of KLMT-8 bomb-shaped ecstasy pills. In addition there were over one hundred baggies

of meth labeled White Phosphorous. [¶] “There’s only so much you can do,” said Sergeant Newman. “We can destroy this stuff, but there are plenty of other labs out there and a growing demand from elementary school kids on up.” The drugs, known as WMDMA, have become common amongst Virtual Reality Raves, causing the deaths of hundreds of party-goers who were online raving alone in their homes. [¶] Despite the rising toll of WMDMA-related deaths, Bausch & Cartz Pharmaceuticals believes the increase in amphetamine-based drugs reveals a vital need for stronger FDA-approved medications for pre-teens and young adults.
